New Product Announcement

Experimental Silflake 608

Woonsocket, RI – Technic EPD has announced the release of Experimental Silflake 608, a new highly engineered silver flake. The flake is mechanically flattened, and manufactured to work well in most polymeric systems. The applications include a wide variety of conductive adhesives, die attach and thermally conductive applications.

-  **Unique properties for thermally conductive applications**
-  **High tap density**
-  **Residual lubricant that works well in polymeric applications**
-  **Applications: conductive adhesives, die attach, and other polymeric applications**

Typical SEM

Typical Physical Data

D50	5.0 – 8.0 μm
Tap Density	> 5.0 g/cm^3
Specific Surface Area	0.1 – 0.3 m^2/g
Weight Loss 538°C	< 0.3 %

About Technic

Technic Inc. is a Rhode Island based, privately held corporation with over 900 employees worldwide. For over 70 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the electronic component, printed circuit board, semiconductor, industrial finishing and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
