Technic Engineered Powders Division Appoints Lina Bian, R&D Scientist

Woonsocket, RI USA - Technic Engineered Powders Division is pleased to announce the appointment of Lina Bian as Research and Development Scientist. Dr. Bian's responsibilities include leading powder research projects, assisting on research projects as assigned, and developing new characterization techniques as required.

Dr. Bian graduated from Clarkson University, with a Ph.D. degree in Chemistry. Her research focuses on synthesis and characterization of metal, semiconductor, polymer, and hybrid material particles. She was a visiting scientist at Xerox Corporation prior to joining Technic. She also held an internship at Eastman Kodak Company. Dr. Bian has experience in design and functionalization of particle and polymer matrix composites (silver/silica/carbon black/alumina/resin/epoxy/silicone) for sensing, printing, catalysis, photovoltaics, diagnosis, and drug delivery.

"We are very excited to welcome Lina. She will provide a fresh new point of view to Technic's Engineering Powder Division."

*Jim Frick – Global Sales & Marketing Director
Technic Engineered Powders*

About Technic

Technic Inc. is a Rhode Island based, privately held corporation with over 950 employees worldwide. For over 70 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the electronic component, printed circuit board, semiconductor, industrial finishing and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
