

Filter Systems

Out-tank models

Out-tank models are complete with a magnetic drive, sealless pump and a CPVC filter chamber suitable for use with most solutions up to 190°F. All models are 115v/1ph/60Hz.

Model	Item Number	Rate	Filter Tubes
5	70660-4	200 gph	1-6"
10	70670-8	240 gph	1-10"
20	70645-3	390 gph	1-20"

Note: A clear PVC chamber is also available for solutions up to 140°F.

In-tank models

In-tank models are complete with a vertical, self-priming pump with a totally enclosed, fan-cooled motor and a CPVC filter chamber suitable for use with most solutions up to 190°F. All models are 115V/1ph/60Hz.

Model	Item Number	Rate	Filter Tubes
5	70690-7	200 gph	1-6"
10	70700-1	250 gph	1-10"
20	70680-3	350 gph	1-20"
300 DC	70645-3	550 gph	1-30"

Note: A clear PVC chamber is also available for solutions up to 140°F.

Technic, Inc. is an authorized distributor for Camac Industries, Filter Pump Industries, Serfilco, Sethco Mfg. (Mefiag) and Creative Filtration Systems (Royal Flusher Models). We stock a variety of filter systems and spare parts. Because of our purchasing volume we can sometimes expedite deliveries and service. If you prefer a particular manufacturer and would like a price quotation, please consult with our Sales Department at 401 728-7081. All of the above filter systems are normally available within seven to ten days.
