## Technic Launches Enhanced White Flexible Solder Mask for LED Applications – TechniFlex LCL 1000F/900

(Cranston, Rhode Island, USA) Technic Inc. has announced the release of its new liquid photoimageable solder mask for LED applications. The **TechniFlex LCL 1000F/900 series** is an advanced, white liquid photoimageable solder mask for use in rigid, rigid-flex, and flexible LED fabrication.

**TechniFlex LCL 1000F/900** provides superior flexibility and high reflectivity with none of the discoloration commonly experienced after multiple reflow cycles. **TechniFlex** resists discoloration in temperatures as high as 260°C, retaining greater than 80% reflectivity over a 400-700 nm wavelength range. **TechniFlex** also eliminates micro solder mask cracking on aluminum substrates.

**TechniFlex LCL 1000F/900** is UL-approved, halogen-free, and RoHS-compliant and is available in high gloss or matte finishes.

*Technic, Inc. is a US based, private, financially strong corporation. For over 65 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the electronic component, printed circuit board, semiconductor, photovoltaic, industrial finishing and decorative industries.*
