Claudia Mosher Appointed Regional Manager for the US Midwest and Mexico

Cranston, RI – Technic is pleased to announce the appointment of Claudia Mosher as the new Regional Manager for the US Midwest and Mexico. In her new role, Claudia will oversee customer support and field service for Technic covering the Midwest and Mexico. Her responsibilities include managing field staff, building and maintaining strong customer relationships, supporting customer technical roadmaps, and working closely with clients to foster trust and ensure that their needs and expectations are met and exceeded.

Claudia is a graduate of Bielefeld College in Germany, where she earned a Bachelor of Science in Chemistry. She brings over 35 years of experience in the electroplating industry, having held positions such as Research Chemist, Technical Service Manager, Senior Sales Manager with LeaRonan Inc., and Founder of Hitek Labs. Claudia joined Technic nearly ten years ago and has served as the North American Product Manager for the company's 3D Printing and Anodizing products before advancing to the role of Global Business Manager for Industrial Applications.

Claudia Mosher – Technic Regional Manager for US Midwest and Mexico

Claudia takes over the role from Brian McIlveen, who has recently retired after an illustrious 46-year career in the industry. Brian joined Technic on November 1st, 1991, and had been with the company for nearly 33 years. Throughout his tenure, Brian was recognized as one of the most respected representatives globally, highly valued by clients for his extensive knowledge in plating and his dedication to service.

"We would like to extend our heartfelt thanks to Brian McIlveen for his exceptional service and commitment over more than three decades. His expertise and passion for the company and the industry have left a lasting impact on both Technic and our clients. As we welcome Claudia Mosher to her new position, we are confident that her leadership and customer-centric approach will continue to strengthen our relationships in the US Midwest and Mexico."

- Steve Schaefer, Chief Operations Officer

About Technic: For almost 80 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
