Join Technic at FABTECH 2024: Experience the Future of Metal Finishing and Anodizing

Technic, a worldwide leader in advanced metal finishing solutions and advanced processing automation technologies, is excited to participate in **FABTECH 2024**, North America's premier metal forming, fabricating, welding, and finishing event, at the Orange County Convention Center in Orlando, FL, from October 15-17, 2024.

FABTECH is the ultimate destination for industry professionals looking to connect with over 1,500 top-tier suppliers, discover groundbreaking solutions, and gain the tools needed to boost productivity and profitability. With unparalleled opportunities to network, share expertise, and stay ahead of emerging trends, FABTECH is your gateway to the future of manufacturing.

Join us at **booth W224** to explore our cutting-edge metal finishing and [anodizing equipment](#). We're thrilled to showcase the Laboratory Anodizing Mini-Plant (LAMP) unit, a compact and complete manual anodizing line ideal for machine shops and OEM manufacturers. The LAMP unit offers R&D capabilities in a small footprint, making it perfect for integrating anodizing capabilities into your operations.

Additionally, learn about our [MP300](#) and [MP500](#) systems. The MP300 is a patented single-piece flow automation system that reduces labor, consumables, and utility costs while significantly improving turnaround time by up to 80%. Technic's MP500 system, designed for the medical surface finishing industry, offers precise and repeatable results with user-friendly touch-screen operation and monitoring.

Stop by for a hands-on look at the LAMP unit and learn how it can enhance your production efficiency. Our team will be available for demonstrations and to discuss how Technic's advanced solutions can be tailored to your specific needs.

Don't miss this chance to engage with our experts and discover how Technic can support your business.
