Technic Appoints Laura Milici, Manufacturing Manager

Cranston, Rhode Island, USA – Technic is pleased to announce the appointment of Laura Milici as the new Manufacturing Manager for our Cranston, RI specialty chemical production facilities. Laura, a chemical engineer with nine years of manufacturing management and process engineering experience, brings solid expertise to our team. Her proven ability to optimize processes, improve product quality, and meet production demands will be invaluable as we continue to innovate and grow.

Laura earned a Bachelor of Science in Chemical Engineering from Worcester Polytechnic Institute in Worcester, MA. Her educational background, coupled with her hands-on experience, equips her with the knowledge and skills necessary to drive our production facility forward.

Laura Milici
Technic Manufacturing Manager

"Laura's experience and dedication to excellence make her an ideal fit for our team. We are excited to see the positive impact she will have on our operations. Her ability to lead teams, streamline processes, and enhance product quality aligns perfectly with our strategic goals."

- Tom Tyson / Vice President of R&D and Manufacturing

About Technic: For over 75 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
