Technic to Showcase Expertise at IPC APEX EXPO 2025

Anaheim, CA - Technic is pleased to announce its participation in **IPC APEX EXPO 2025**, taking place at the Anaheim Convention Center in Anaheim, California, from **March 18-20**. As the largest electronics manufacturing event in North America, IPC APEX EXPO brings together industry leaders for informative technical conferences, networking opportunities, and a dynamic exhibition. The event highlights the latest advancements in PCB design, fabrication, and assembly, making it an essential destination for professionals looking to stay at the forefront of the industry.

At **Booth #3817**, attendees will have the opportunity to engage with **Mike Carano**, a renowned expert in electronics manufacturing and process chemistry. A longtime IPC volunteer, Carano has made significant contributions to the industry, serving on 16 IPC committees and earning the prestigious IPC Hall of Fame Award. With over 150 published technical articles and extensive experience presenting worldwide, he has played a pivotal role in advancing process chemistry, metallization technologies, and materials innovation.

“We’re thrilled to have Mike Carano join us at IPC APEX EXPO 2025. Mike’s extensive knowledge and groundbreaking contributions to the industry make him an invaluable resource for attendees. His presence offers a unique opportunity for professionals to gain insights from one of the field’s most respected experts.”

– **Denis Jacques, Global Product Manager, PWB**

In addition to meeting Mike Carano, attendees can connect with Technic’s specialists to learn more about **ASIG** and **Circudep Black Knight**. Experts will be available to break down these technologies, discuss their applications in-depth, and highlight how they are transforming electronics manufacturing and addressing industry challenges.
